

# LARDIS:ONE

## **My control center is not sending Tetra SDS, what other options do I have?**

Via LARDIS:ONE level converter (article: LAR-1163) it is possible to connect a POCSAG receiver with serial interface to LARDIS:ONE. To receive mission messages via SMS, use the new LARDIS:ONE (Mini) or LARDIS:ONE 7plus with integrated 3G modem.
